Introduction to Space System Vulnerabilities

Attached in the top left is a product I wrote that introduces space system vulnerabilities to cybersecurity professionals looking to get started in the space enterprise. The following is a recorded talk I gave at KringleCon using these slides: https://youtu.be/qQaA1w6WjGw

The slides have been approved for public release, OTR-2024-00124. Slides are licensed under CC BY 4.0.
